If an old sore existed simply because the flesh was diseased at that particular spot, it would be an easy matter to apply some remedy directly to the place that would kill the germs; or the diseased flesh might be removed by a surgical operation and a cure effected. But the very fact that old sores resist every form of local or external treatment, and even return after being out away, shows that back of them is a morbid cause which must be removed before a cure can result. Just as long as the pollution continues in the blood, the ulcer remains an open cesspool for the deposit of impurities which the circulation throws off. S.S.S. cures Old Sores by purifying the blood. It removes every trace of impurity and taint from the circulation, and thus completely does away with the cause. When S.S.S. has cleansed the blood, the sore begins to heal, and it is not a surface cure, but the healing process begins at the bottom; soon the discharge ceases, the inflammation leaves, and the place fills in with firm, healthy flesh. Under the purifying and tonic effects of S.S.S. the system is built up, and those whose health has been impaired by the drain and worry of an old sore will be doubly benefited by its use. Book on Sores and Ulcers and any medical advice free to all who write.

income possessed by this laudable chartity is Tag Day, accumulative expenses make it imperative to ask from the Richmond public an even more generous response than was given last year. The proceeds of the 1911 Tag Day, going beyond the \$2,000 mark, while very gratifying, fell far short of the annual expense of the association, the large deflect being made up by private subscription. Encouraged by the success that met the Nurse Association inition of Tag Day, several other chartishle organizations of the city staged similar campaign features last year. This year, however, a treaty has been drawn up between the various beingfeent organizations, in which the rights of the Nurse Association to the exclusive practice of Tag Day are recognized, so that the celebration of April 22 will be the only one of its kind to be undertaken in Richmond this year. Since last year several new nurses have been added to the staff of the association and the scope of the work generally widened, so that expenses this year will run higher than ever before. Hence the public pocket must be ajar on April 22 if the association is not to come out very badly in debt at tyeen and of this year's activities.

At the meeting of the association held Tuosday morning in the Nurses' come out very badly in debt at tyeen and at the stonishing number of 1,925 visit were made by the nurses during the twenty-nine days. Ninety-aix new patients were visited by the nurses, and 156 meal tickets given out. If the food you eat, instead of di-gosting, ferments and forms sour
